

Electrical Component Pack Contents:

(All Electrical components are CSA approved).

A - Screw-in Bulb Connector (Qty:1)

B - 13W Spiral Fluorescent Bulb (Qty:1)

C - 6ft Electrical Cord (Qty:1)

D - Rubber Band (Qty:1)

E - 1ft Twine (Qty:1)

F - Coral Reef (Qty:1).

Assembly Instructions:

1 - Screw Bulb **B** into Connector **A**.

2 - Plug Connector **A** into Electrical Cord **C**.

3 - View of connected components **A+B+C**.

4 - Tie Electrical Cord **C** tightly to the space between Bulb **B** and Connector **A**, using Rubber Band **D**.

5 - Tie one end of Twine **E** to the Electrical Cord Loop that was created in step 4.

6 - Flip the Coral Reef **F** and rest it on a soft surface (Pillow or Foam). Thread Twine **E** into one of the Ceiling Mounting Anchor Holes, as featured in diagrams 8 and 9.

7 - Pull the Electrical Assembly by the Twine and tie the Twine **E** snugly onto itself, thus mounting the Assembly as close as possible under the rim of the Coral Reef.

8,9 - Using the closest Wall Mounting Anchors, mount the Coral Reef onto a Wall. Make sure Electrical Cord runs through the opposite Channel, enabling a flush mounting.

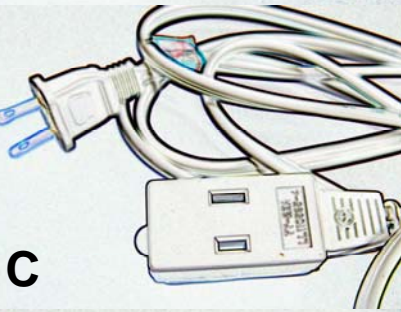

10,11 - Plug-in and Enjoy!
